# DISTRIBUTION AND UTILISATION OF THE 2018 ANNUAL BUDGET FUNDING AMOUNT (JANUARY – SEPTEMBER)

#### 1.1 Selected Priority Areas for 2017-2019

In 2017, the priority areas for utilisation of the ABFA were revised to reflect the Government of Ghana's medium-term development strategy and policy objectives. This revision was in line with Section 21(6) of the PRMA, as shown in Table 1.

Table 1: Revision to the ABFA Priority Areas

| No. | 2011 – 2016 Priority Areas           | 2017 – 2019 Priority Areas          |  |  |  |
|-----|--------------------------------------|-------------------------------------|--|--|--|
| 1   | Agriculture Modernisation            | Agriculture                         |  |  |  |
| 2   | Capacity Building (Including Oil and | Physical Infrastructure and Service |  |  |  |
|     | Gas)                                 | Delivery in Education               |  |  |  |
| 3   | Expenditure & Amortisation of Loans  | Physical Infrastructure and Service |  |  |  |
|     | for Oil and Gas Infrastructure       | Delivery in Health                  |  |  |  |
| 4   | Road and Other Infrastructure        | Road, Rail and Other Critical       |  |  |  |
|     |                                      | Infrastructure Development          |  |  |  |

#### 1.2 Distribution and Utilisation of ABFA Allocation

### 1.2.1 Analysis of 2018 Programmed ABFA Allocation

An amount of GH¢1.55 billion, was programmed ABFA allocation for 2018. This represents a 94.19 percent increase over the programmed ABFA allocation for 2017 (GH¢796.32 million).

Out of the budgeted GH¢1.55 billion, GH¢463.91 million (representing 30 percent) was for *Goods and Services*, whilst GH¢1.08 billion (representing 70 percent) was to be utilised under *Capital Expenditure*. These programmed allocations to Goods and Services, and Capital Expenditure, both represent a 94.19 percent increase over their respective allocations in 2017.

The Ministry itself acknowledges that "The allocations were made in line with Section 21(4) of the PRMA which requires the allocation of not more than 30 percent of ABFA receipts for Goods and Services Expenditure, and at least 70 percent of ABFA receipts to

fund capital expenditure". This assertion settles a running dispute between PIAC and the Ministry as to the interpretation of Section 21(4) of the PRMA.

Programmed allocations of ABFA to the priority areas, as shown in Table 2, indicates that an amount of GH¢251.47 million, accounting for 16.31 percent of total budgeted ABFA, was to be utilised on Agriculture, representing a 61.19 percent increase over the allocation to the Agriculture priority area in 2017 (GH¢156.01 million).

An amount of GH¢465.91 million, accounting for 30.23 percent of total allocation, and representing a 120.06 percent increase over the respective allocation in 2017 (GH¢211.72 million), was to be utilised on Physical Infrastructure and Service Delivery in Education.

An amount of GH¢50 million, accounting for 3.24 percent of total allocation, was to be utilised on Physical Infrastructure and Service Delivery in Health. The same amount was programmed for this priority area in 2017.

The remaining amount of GH¢774 million, accounting for 50.05 percent of total budgeted allocation to ABFA, was programmed for the Road, Rail and Other Critical Infrastructure area in 2018. This represents a 105.51 percent increase over the respective allocation in 2017 (GH¢376.62 million).

Besides the allocation to the priority areas, an amount of GH¢5 million, representing 0.32 percent of total allocation to ABFA, was programmed for the purchase of an office building and implementation of the activities of the Public Interest and Accountability Committee (PIAC) for the year. The allocation to PIAC represents a 163.16 percent increase over the programmed allocation in 2017 (GH¢1.90 million).

Table 2: 2018 Programmed ABFA by Priority Area

| No | Priority Area   | Goods and<br>Services (GH¢) | CAPEX (GH¢)      | Total (GH¢)      | % of<br>Total |
|----|---|-----------------------------|------------------|------------------|---------------|
| 1  | Agriculture   | 3,000,000.00                | 248,465,991.00   | 251,465,991.00   | 16.31         |
| 2  | Physical Infrastructure and Service Delivery in Education         | 455,913,085.00              | 10,000,000.00    | 465,913,085.00   | 30.23         |
| 3  | Physical Infrastructure and Service Delivery in Health            | -                           | 50,000,000.00    | 50,000,000.00    | 3.24          |
| 4  | Road, Rail and<br>Other Critical<br>Infrastructure<br>Development |                             | 773,997,875.00   | 773,997,875.00   | 50.21         |

# 1.3 Analysis of 2018 (January – September) ABFA Utilisation

A total amount of GH¢1.24 billion (US\$276.19 million), as shown in Table 4, had been allocated to the ABFA as at the end of September 2018, representing a 183.24 percent increase over the ABFA allocation in the first half of 2017 (GH¢437.10 million).

The amount of GH¢1.24 billion as reported by the Ministry of Finance comprised the following:

- The unutilised balance brought forward from 2017 GH¢440.84 million (US\$99.86 million)
- Receipts from three Jubilee liftings: 41<sup>st</sup> GH¢186.02 million (US\$42.12 million),
   42<sup>nd</sup> GH¢49.35 million (US\$11.18 million), and 43<sup>rd</sup> GH¢152.11 million (US\$31.85 million); and
- Receipts from three TEN liftings: 5<sup>th</sup> GH¢73.54 million (US\$16.65 million), 6<sup>th</sup> GH¢209.88 million (US\$47.59 million), and 7<sup>th</sup> GH¢126.32 million (US\$26.92 million).

# 1.4 Expenditure of ABFA by Priority Areas

An amount of GH¢606.60 million, representing 49.0 percent of total ABFA receipts, was expended as at the end of September 2018. Table 5 provides a summary of expenditure by the priority areas, with details of projects by priority areas in Appendix 1.

Table 3: 2018 (January – September) ABFA Expenditure by Priority Areas

| No. | Priority Area                 | Expenditure (GF               |                 |                |
|-----|-------------------------------|-------------------------------|-----------------|----------------|
|     |                               | Goods &<br>Services<br>(GH¢M) | CAPEX<br>(GH¢M) | Total          |
| 1   | Agriculture                   | -                             | 34.66           | 34,656,067.43  |

Source: Ministry of Finance, 2018

Graphically represented in Figure 1 is the ABFA utilisation by Priority Areas as a percentage of total utilisation within the period under review.

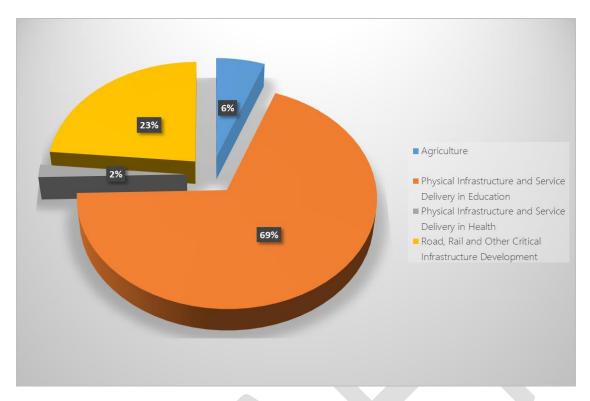

Figure 1: ABFA Utilisation by Priority Areas as a Percentage of Total Utilisation

# 1.4.1 Agriculture

Total spending on Agriculture amounted to GH¢34.66 million. This represents 93.42 percent increase over the half-year 2017 expenditure under the same priority area. Of this amount, GH¢30.04 million was spent on the development and rehabilitation of irrigation infrastructure in the Upper East, Central, Volta, Upper West, Northern, Eastern and Brong-Ahafo Regions. An amount of GH¢322,071.11 was spent on the construction of a hostel block for the Anomabo Fisheries College. This brings total expenditure on the College as at September 2018 to GH¢3,983,772.24.

An additional amount of GH¢3.24 million was spent on the rehabilitation of warehouses and ancillary facilities in the Ashanti and Brong-Ahafo regions. Total spending on Agriculture as shown in Figure 1, accounted for 5.72 percent of total ABFA utilisation as at the end of September 2018.

# 1.4.2 Physical Infrastructure and Service Delivery in Education

Total expenditure on Physical Infrastructure and Service Delivery in Education amounted to GHQ417.05 million, representing a 96.98 percent increase over the spending on the priority area as at half-year 2017.

The amount as shown in Figure 1, accounts for 68.87 percent of total ABFA utilised for the period, and comprised of GH¢414.64 million support to the implementation of the

Free Senior High School Policy, and GH¢2.40 million paid for the construction of 6-Unit classroom blocks and the rehabilitation of dilapidated basic school structures nationwide.

# 1.4.3 Physical Infrastructure and Service Delivery in Health

An amount of GH¢11.27 million, accounting for 1.86 percent of total ABFA utilisation for the period, was spent on the provision of Physical Infrastructure and Service Delivery in Health. The amount represents a 77.46 percent decrease when compared with the amount spent on health as at half-year 2017.

The amount includes the payment of GH¢10.59 million for the construction of an office complex for the Association of Regulatory Bodies at Ridge, Accra, and GH¢677,585.38 spent on the construction of institutions including health centres and CHPS compounds in the Ashanti, Western, Northern, Upper West, and Volta regions.

#### 1.4.4 Road, Rail and Other Critical Infrastructure

Expenditure on the Road, Rail and Other Critical Infrastructure during the period amounted to GH¢142.63 million. The amount represents 23.55 percent of the total amounts utilised during the period, and a 388.12 percent increase compared with half-year 2017 expenditure on the priority area.

A breakdown of the utilised funds shows an amount of GH¢111.74 million was spent on the construction, rehabilitation, and upgrading of roads and highways across the country, whilst GH¢30.89 million was disbursed to the Ministry of Railways Development. This disbursed amount was for the payments for the modernisation of workshop complex and a training school for the Ghana Railways Development Limited, rehabilitation of the Kojokrom – Tarkwa Railway lines, supply of wooden sleepers for the rehabilitation of the Accra – Nsawam Railway line, and related expenditures.

## 1.4.5 Public Interest and Accountability Committee

An amount of GH¢1 million was transferred to the Public Interest and Accountability Committee (PIAC) for the implementation of part of its programmed activities for the year. The amount represents a 47.37 percent decrease compared to the amount transferred to PIAC as at half-year 2017.

Figure 2 shows a comparison between programmed ABFA by priority areas for 2018 and actual expenditure as at the end of September 2018, and in percentage of expenditure per priority area as:

- Agriculture: 13.78 percent
- Physical Infrastructure and Service Delivery in Education: 89.5 percent
- Physical Infrastructure and Service Delivery in Health: 22.53 percent
- Road, Rail and Other Critical Infrastructure Development: 18.43 percent
- PIAC: 20 percent

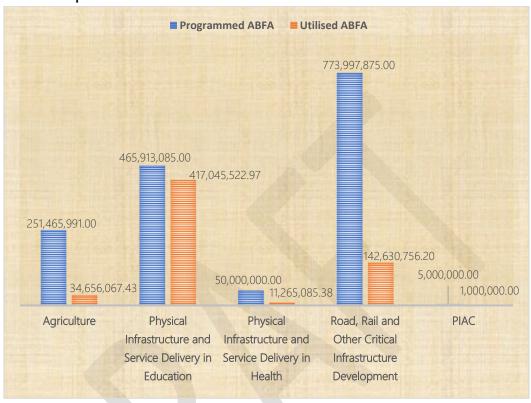

Figure 2: Comparison of 2018 Programmed ABFA and Actual ABFA Expenditure (GH¢)

January-September, by Priority Areas.

#### FINDINGS AND RECOMMENDATIONS

#### **Key Findings:**

- 1. An amount of GH¢1.55 billion was programmed for spending in 2018. This equalled 70 percent of net petroleum revenues. From 2017, there was an unutilised ABFA of GH¢403.74 million (now GH¢440.84 million due to exchange rate gains), which according to the Ministry of Finance was being held in the Treasury Single Account (TSA), and would be brought forward to 2018. By this calculation, the amount that should have been programmed for spending in 2018 should be GH¢1.99 billion.
- 2. The GH¢1.55 billion which the Ministry claims is its programmed ABFA expenditure for 2018, represents 70 percent net petroleum revenues and complies with Section 18(1) of the PRMA regarding the allocation of petroleum revenues.
- 3. It therefore means the programmed amount is exclusive of the GH¢403 million (now GH¢440 million as a result of exchange rate gains) outstanding balance from 2017.
- 4. The Ministry indeed, confirmed this in a meeting held with PIAC on April 18 at which meeting it explained that because the 2018 budget was presented in September 2017 and the GH¢403 million had been approved by Parliament for spending in that year, it couldn't have been included in the 2018 budget for Parliamentary approval.
- 5. The Ministry again, confirmed that, the GH¢440 million outstanding balance from 2017 was therefore not part of the approved expenditures for 2018 under the Appropriation Act for that year.
- 6. The Ministry indicated that the unspent amount will need to be brought forward into the 2019 budget for Parliamentary approval (under the 2019 Appropriation Act) before it could be spent.
- 7. Yet in detailing out the programmed expenditure in respect of the GH¢1.55 billion, the Ministry included the GH¢440 million balance from 2017.
- 8. The Ministry's explanation to PIAC and, by extension, to the Ghanaian public is unsatisfactory and misleading, to the extent that it creates the impression that the GH¢440 million unspent amount from 2017 has been duly accounted for.
- 9. As regards allocations of the ABFA, the Ministry itself acknowledges that "The allocations were made in line with Section 21 (4) of the PRMA which requires the

allocation of not more than 30 percent of ABFA receipts for Goods and Services Expenditure, and at least 70 percent of ABFA receipts to fund capital expenditure". This assertion settles a running dispute between PIAC and the Ministry as to the interpretation of Section 21(4) of the PRMA.

- 10. PIAC notes that the programmed ABFA complied with Section 21(4) of the PRMA
   30 percent expenditure on Goods and Services, and 70 percent expenditure under Capital Expenditure inspite of the Ministry's earlier disagreement with the Committee on the interpretation of the Section.
- 11. Programmed funding to Agriculture in 2018 increased by a massive 61.19 percent, compared to 2017.
- 12. The Kojokrom-Tarkwa railway rehabilitation project received substantial allocations. PIAC's visit to the projects confirmed good progress. The Anomabo Fisheries College on the contrary, witnessed slow progress as a result of paltry release of funds.

#### **Recommendations:**

- If as the Ministry claims, the unspent ABFA amount from 2017 will require Parliamentary approval before being spent, then PIAC advises the Ministry to expunge the amount from its programmed expenditure for 2018.
- The Committee commits to work with the Ministry to properly account for the unspent amount and the outcome shall be made public in subsequent report(s).
- The Committee encourages the Ministry to ensure that going forward, its
  programmed and actual expenditure continue to comply with Section 21(4) of the
  PRMA, which requires 70 percent expenditure on public investments and 30
  percent on goods and services.
- PIAC commends the government for the increased allocation to the Agriculture
  Priority Area in 2018, especially in developing the needed infrastructure to
  support the sector. While we encourage this development, we would also
  recommend that attention be paid to activities that support direct production.
- Funding to ABFA projects should be sustained in adequate amounts to ensure timely completion. This will help to avoid the huge cost overruns that have been associated with the delay in execution of many ABFA-funded projects, particularly road projects.
